LA STORIA

Luce come emozione, sensazione, come artificio e metaforica rivelazione. **Bebby Italy Since 1960** riscrive l'arte di illuminare rendendola opera d'arte in sé, attraverso creazioni capaci di fondere funzionalità ed estetica, qualità e decoro, identità ed effetto scenico. Una filosofia volta a rendere la luce protagonista assoluta dell'ambiente, che da essa viene ridisegnato, ridefinito ed arricchito, mediante le caratteristiche peculiari dei materiali, delle forme e dei dettagli che si traducono in esperienze visive uniche per intensità e varietà. Opere che nascono da oltre cinquant'anni di esperienza in cui artigianalità ed innovazione, ricerca e passione costituiscono l'essenza stessa di una realtà che è divenuta, in tutto il mondo, sinonimo di prestigio e di stile, e rappresenta la scelta di classe per un'illuminazione d'interni che sia armonia tra progetti di luce ed architettura. **Bebby Italy Since 1960** veste le atmosfere di dimore da sogno, in ville e castelli a cui restituisce l'antico lusso e splendore, e nelle più rinomate catene alberghiere, in cui è simbolo di eleganza e di valore: un progetto di costante ricerca stilistica che ha portato a prestigiose collaborazioni con il **Teatro La Fenice** ed il **Teatro alla Scala**, per cui **Bebby Italy Since 1960** ha curato in esclusiva la ricostruzione ed il restauro dei corpi luce, riportando all'originario splendore due monumenti che sono simbolo riconosciuto ed incontrastato, nel mondo, dell'arte italiana. **La nostra storia parla di EREDITÀ, ECCELLENZA e UNICITÀ.**

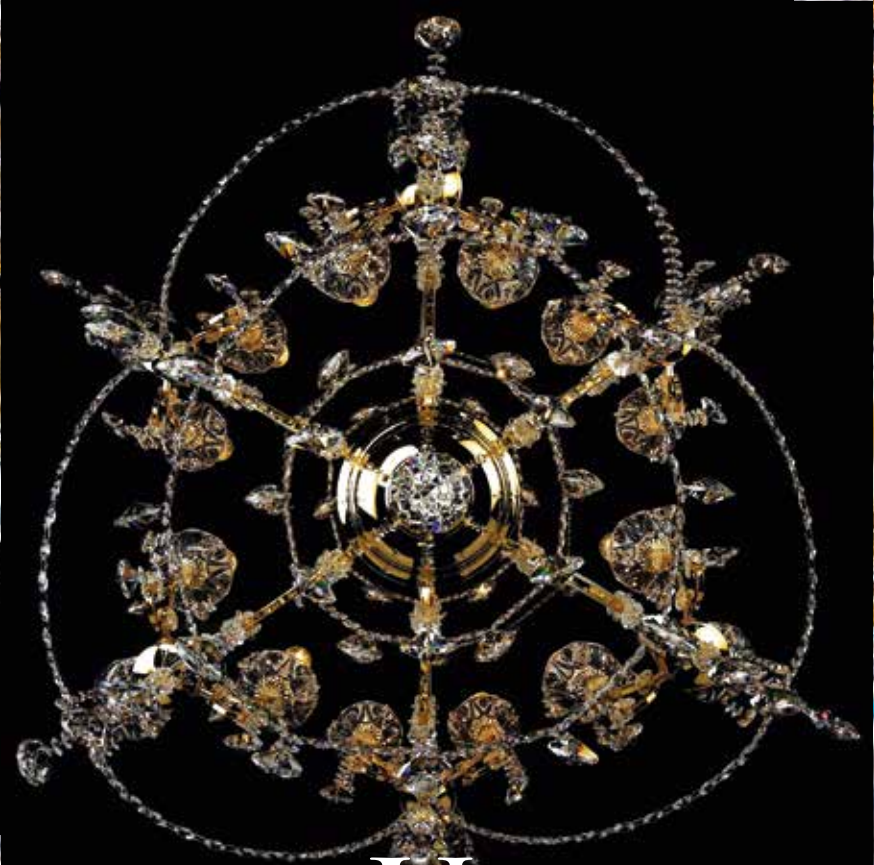

THE HISTORY

Light as emotion, as feeling, as artifice and metaphorical revelation. **Bebby Italy Since 1960** rewrites the art of illuminating making work of art in itself, through creations capable of merging functionality and aesthetics, quality and decoration, identity and scenic effect. A philosophy aimed at making light as a protagonist of the environment, that it is redrawn, redefined and enriched by the unique characteristics of the materials, shapes and details that translate into visual experiences unique for their intensity and variety. Works that come from more than fifty years of experience of artistry and innovation, research and passion. These are the main essences of a reality that has become, in the world, synonymous with luxury and style, and are representing the perfect choice of class for interior lighting, being harmony between light and architectural projects. **Bebby Italy Since 1960** wears atmospheres of dream mansions, villas and castles that return to old luxury and splendour, and of the most renowned hotel chains, which are symbols of elegance and value. A constant stylistic project research has led to prestigious collaborations with the **Teatro La Fenice** and the **Teatro alla Scala**, for which **Bebby Italy Since 1960** edited exclusively the reconstruction of lights, bringing back to their original splendour two monuments that are recognized as symbol of Italian art in the world. Our story is about **HERITAGE, EXCELLENCE and UNIQUENESS.**

Since 1960

All products are manufactured, checked and tested according to current international standards.
All lighting products come with a certificate of authenticity attached. The colours of glass parts may vary slightly in shade because of the complex artisan techniques used to make them. In order to ensure the continuous improvement of its products, **BEBY ITALY srl** reserves the right to modify components without notice.

All models are registered.

CE: The CE (Conformité Européenne) mark signifies that a product meets the health, safety and environmental requirements established by the directives of the European Community.

This marking is used for the products of the Canadian and American markets.
It guarantees the product's conformity to the Canadian and American security requirements.

CLASS I: An appliance in which protection against electric shock from accessible conductive parts in the event of a malfunction is provided by a protective earth conductor.

CLASS II: An appliance in which protection against electric shock from accessible conductive parts in the event of a malfunction is provided by double or reinforced insulation.

CLASS III: An appliance in which protection against electric shock relies in the event of a malfunction on the use of a SELV (Safety Extra-Low Voltage) power supply.

Appliances use self-protected bulbs.

Appliance conforming to the RAEE/WEEE directive of the European Community.

BEBY ITALY srl reserves the right to modify specifications and designs and to eliminate models from its range without prior notice and without any further obligations.
Reproduction of this catalogue in part or in whole, in any way and by any means whatsoever is strictly forbidden without the prior authorisation of **BEBY ITALY srl**.
